

## Kent Safety Solutions

is a leader in the safety management, training, and consulting industry. Our safety experts help companies focus on the safety of their people and processes while enabling them to focus on serving their customers' needs. Together with our clients, we build customized safety solutions that provide managers with the confidence that their employees, customers, and partners are working safely – every day.

When you elect Kent Safety Solutions, you receive:

- A Customized Approach to Safety Management Practices
- Professionalism – Delivered Consistently
- Top Quality Safety Personnel
- An Organization That Delivers a Culture of Safety
- Specialties including: On-site HSE Consultation, P&A and Decommissioning, H2S Monitoring, HSE Training

We specialize in tailoring our safety programs to support your organization's specific needs. Working with your management staff, we customize a process that ensures compliance associated with regulatory and industry requirements.

### Talented People, Focused on Safety

With Kent Safety Solutions, you get more than a person at your location, you hire an entire company that takes pride in providing the highest level of safety and personal commitment available in the industry.

We employ quality people with experience, strong work ethic, and integrity. When you elect Kent Safety Solutions, you are ensured the very best safety professionals around. In fact, you'll find:

- Our personnel have vast backgrounds in marine, manufacturing, petroleum and refining, construction and fabrication, drilling, completion and workovers, productions, and simultaneous operations.
- Our personnel are active members of the American Society of Safety Engineers (ASSE)
- Our firm takes the time to properly train our field personnel in every aspect of safety and compliance issues that may affect your company's safety process
- Kent Safety Solutions invests in the continuing education of our personnel to ensure personal growth and current knowledge of our ever-changing regulatory and compliance requirements.

### Leaders in Safety Services

We take the time to understand your unique safety needs. We specifically engineer programs to improve the overall safety of your organization – all designed with your people, partners, processes, industries, and customers in mind. Kent Safety Solutions understands the unique safety needs of various companies.

We provide a comprehensive variety of safety services to the energy and industrial markets. These services include, but are not limited to the following:

- Oilfield/Energy
- Upstream, Downstream and Midstream
- Natural Gas
- Industrial Manufacturing
- Chemical
- Mining
- And More

### Why Is Safety Important?

People are our most valuable assets. Providing a safe environment is simply the right thing to do – and the only alternative in today's marketplace. Safety isn't a luxury – it's a requirement. Additionally, a culture of safety is not only more productive – it's the smartest financial move a company can make. Everyone knows that a quality safety program can save lives, but it saves money as well.

We help companies answer some key safety questions. Are we really compliant? Are all of our subs compliant? Is everyone on the job site compliant? What happens when we are audited? What happens when there is an accident? How can we keep our people safe? How safe is our organization, really?

At Kent Safety Solutions, we understand that a poor safety program or an incident can put you out of business – and we help you mitigate risk with quality programs designed toward an incident-free, culture of safety. We help companies provide an environment where your people, partners and customers can feel good about what happens in the course of business. If it's not safe, it's just not right.

### Safety Management and Consulting

We provide a comprehensive variety of safety services across many diverse fields in energy, oil & gas, manufacturing, construction and more. Wherever people are involved, Kent Safety Solutions can help. We take great pride in our personal commitment to each of our clients.
